Dear customer!

The past year has been influenced by the pandemic and the limitations it has imposed on physical meetings between people. This presents the perfect opportunity to spend a little more time on your stamp collection, and if you are missing anything, I hope you can find it in our online store at posten.no/frimerkebutikken.

In 1921, the Dovre railway line was opened by King Haakon VII. It would become the most important connection between northern and southern Norway for passengers, freight and mail. Two beautiful stamps will be issued for the centennial, one with the steam locomotive "Dovregubben" at Hjerkin Station and one with a train in front of the mountain Snøhetta in the Dovrefjell range. The stamps are beautifully illustrated by Trond Bredesen.

The theme of this year's Europa stamps are endangered national wildlife. In Norway, the issue will feature the Atlantic puffin and the great yellow bumblebee. The stamps were designed by Camilla Kvien Jensen.
