# Dear Customer!

Norway's stamp number 2000 was issued in January. On 23 August, the same stamp was issued in a miniature sheet for NORDIA 2019, the Nordic stamp show.

**On the miniature** sheet, the stamp is surrounded by previously issued Norwegian stamps, each representing milestones in Norwegian stamp history. You can scan the QR code on the miniature sheet to watch a fascinating video about Norwegian stamp history. Magnus Røkeng designed the miniature sheet.

**Norwegian bicycles** was the theme for our second issue on 23 August. Four different bicycles are shown to represent Norwegian bicycle production. Each stamp also features a brief text in microscript about the bicycles or their users. Sunniva Djupedal, from agency ANTI, was responsible for designing the stamps.

**The National Stamp Day** was held on the 5th of October. Cecilie Særgård is the designer behind the two stamps featuring pets which were issued on this date.

Kind regards,

*Halvor Fastøng*

## – The Eagle has landed!

On 20 July it was exactly 50 years since the very first moon landing, when people all over the world sat glued to their television sets in order to watch this historic moment.

A few hours later, astronaut Neil Armstrong took the first step on the moon, while saying, "That's one small step for (a) man – one giant leap for mankind."

This attractive booklet contains an anniversary envelope franked with the moon stamp with genuine meteorite dust from 2011, stamped with a separate motif postmark.
